EDUCATION

Sri Shakthi Institute of Engineering and Technology

Electronics and Communication Engineering. - B.E

CGPA: 8.15

Coimbatore - India

September 2023 - 2027

Kongu Vellalar Matriculation Higher Secondary School

Degree in HSC

Percentage: 83.6%

Coimbatore - India

June 2022 - May 2023

Kongu Vellalar Matriculation Higher Secondary School

Degree in SSLC

Coimbatore - India

June 2020 - March 2021

SKILLS

Programming Languages: Python, Java
Libraries/Frameworks: JavaScript, React.js
Tools / Platforms: Git, VS Code, Postman
Databases: Mongo DB, SQL

PROJECTS / OPEN-SOURCE

AI - DSA Interview Assistant

Python | Streamlit | Gemini | Algorithms.

- Built an LLM-ready DSA Interview Assistant that analyzes user-submitted algorithmic solutions and detects patterns such as Hash Map and Two Pointers.
- Developed a structured analysis engine to generate time/space complexity evaluation, edge-case identification, and step-by-step dry-run visualization.
- Implemented a rule-based backend architecture designed for scalable semantic enhancement through LLM integration.
- Integrated Google Gemini (LLM layer-ready) to enable advanced explanation refinement, contextual improvement suggestions, and interview-focused insights.

AI - OCR EXTRACTION

Python | React | Gemini API | REST API

- Built an AI-powered OCR Extraction system using React and FastAPI (REST APIs) to extract structured data from images and documents.
- Implemented an OCR pipeline for text detection, preprocessing, and accurate data extraction from scanned inputs.
- Designed a scalable backend architecture and API workflow for real-time image upload, processing, and JSON-based responses.
- Integrated Google Gemini (LLM-ready layer) to enhance text accuracy, contextual understanding, and intelligent data structuring.

CERTIFICATIONS

- Prompt Engineering for ChatGPT - **Coursera**
- Data Science & Analytics- HP Life - **HP Life**
- Participated Googleathon 2.0 - Hackathon.
- Java Full-Stack Course - Career Ladder.
